EvolvHealth is Proud to Announce its Newest Blue Diamond Promoters Ryan & Jenny Chamberlin

Dallas, TX, Dec. 21, 2011 — In April of 2011, Ryan and Jenny Chamberlin began their journey with Evolv as Promoters. They have now impacted thousands of people's health through promoting the e84 Challenge and have worked their way through Evolv's ranks to be within the top 5 money earners.

"Evolv prides itself with the fact that we don't pay industry leaders like Ryan & Jenny Chamberlin to leave a company to come to ours," said EvolvHealth Chairman and Co-Founder Trey White. "We believe this to be unethical. The fact that many leaders like Ryan & Jenny are choosing us on our strength of message, lets us know we are on the right track."

"Ryan and Jenny are true team builders," said EvolvHealth President Josh Higginbotham. "Those that have worked with them in the past know that they operate under the highest standards of excellence. I believe that the quality of team they've attracted in their first 8 months with Evolv says everything needed about who they are."

"About a year ago we began to evaluate our next 10 years goals very deeply," shared Ryan Chamberlin. "We were convinced that it was time for change, and that the current vehicle we had been pursuing was no longer in line with our life's mission statement. We see the ability with Evolv to help more people than we ever thought possible! Over the next few years Evolv will make networking history, and we are proud to be a part of the team to make it happen. "

"At previous companies I didn't really get involved in building the business," shared Jenny Chamberlin. "But with the e84 Challenge everyone can improve their health so it is easy to share with others! For the first time my husband and I are really building the business as a team because the e84 Challenge is so easy to share with other people. In fact, I'm actually talking to as many people as Ryan!"
